BRIEF DESCRIPTION OF ROLES:

1. Consulting Physiotherapist/OT

This role involves assessing new residents and reviewing current residents for their manual handling, basic limb care and pain management needs. The consulting role is very much an assessment & documenting role where you'll work with the other health care professionals at the Aged Care Facility to achieve best outcome results for residents. This role has a contractor's rate of \$50+/hr.

2. Pain Management Physiotherapist/OT

This role involves providing pain management treatments to the residents. Treatment techniques can include Ultrasound therapy, Massage, Wax therapy and TENs. This role has a contractor's rate of \$45-\$50/hr.

3. Rehabilitation Physiotherapist/OT

This role involves providing exercise rehabilitation for patients trying to recover from certain injuries. Treatment is predominantly provided to residents who have had a recent fracture, operation or cerebral accident. This role has a contractor's rate of approx. \$80+/hr.
